Chiltern & District Men's Shed Inc

We are a small group of locals eager to share our company & talents at our shed. We are open to both genders, three days a week.

Supporting ourselves largely by manufacturing toys from mostly recycled wood, which we market at various outlets. Members are involved in both their own & internal projects, sharing their skills & learning from others, utilizing our expanding workshop .

Basic tutoring available at a personal level in most fields can be provided with internal talents on hand.

We invite you & a friend to come along, for a casual introduction, it may well suit you too.

We involve ourselves with several community projects, involving; school group mentoring, aged care groups and numerous individual projects such as furniture repairs, be it, timber or steel.
